TITLE: POLYMER EDGE CASTERS NOW STANDARD ON PELI-HARDIGG™ SINGLE LID CASES

PRODUCTS AFFECTED: PELI-HARDIGG SINGLE LID CASES

DETAILS:

All configurable and standard rotationally moulded cases will receive polymer based edge caster wheels.

This marks a 56% weight reduction on caster wheel housing, removing 284 grams of weight.

Load rating on polymer casters is 34 kilograms a piece
- 68 kilograms for two on a case.

Aluminium casings will still be available for extreme load applications.
